Keystone Futurity Entries Due

STATE COLLEGE (Centre Co.) — The 1995 Keystone Holstein 3-Year-Old Futurity is now open for entries, according to a recent news release from the Pennsylvania Holstein Association (PHA).

The Keystone Futurity is a project of the PHA to stimulate interest in breeding and developing outstanding registered Holsteins for

place animal. The remainder of the money is to be divided among those competitors who show in the 1995 futurity class.

All nomination fees are committed to the purse. No refunds will be made, whether an animal competes or eligibility is discontinued.

Maintaining eligibility is done by continuing to make subsequent payments by due dates. Any animal sold will remain eligible, as along as the animal meets all other PHA show eligibility requirements.

The owner of a nominated animal will be notified when payments are due. Failure to make the next payment cancels eligibility.

For more information, call the PHA at (814) 234-0364.

All-Pa. Contest Deadline Nov. 1

STATE COLLEGE (Centre Co.) — The deadline for the 1992 Pennsylvania Junior All-Pennsylvania Contest is Nov. 1, according to a recent news release from the Pennsylvania Holstein Association.

Open to Pennsylvania Junior Holstein members, the contest is a picture and placing contest. Each entry must include a picture of the animal and a summary of all show placings during the year.

Each class will be judged and the winners announced in the January issue of the official magazine of the PHA, Pennsylvania Holstein Profiles.

For more information, call (814) 234-0364.

Pennsylvania Dairy Seeks Outstanding Promoter

Promoter

HARRISBURG
(Dauphin Co.) — For a third consecutive year, the Pennsylvania Dairy

BRING IT HOME.

Mostoller, Oct. 27.

Get the yields you deserve for all the hard work that goes into raising a good corn crop, with the proven performance advantage of Pioneer® brand hybrids. Because all over the country, the facts show, once again, those who planted our hybrids harvested more bushels per acre. So ask your Pioneer sales representative about which hybrids will help bring out the Earning Power in your fields. And keep a good thing going.

3525

106 CRM

The new performance leader in this maturity. 3525 is a widely adapted, stable, high-yielding hybrid. Tall plant type, excellent for grain and silage. Late flowering. Good ear flex and ear attachment.

3394

111 CRM

Record setting yields and exceptional agronomics. This exciting hybrid combines: impressive early growth, strong stalks and roots, exceptional stress tolerance, above average drydown and lengthy staygreen. Widely adapted to varying soil types, tillage methods and populations. Good grain appearance.

3293

114 CRM

Similar to 3241 with more top-end yield potential. Exceptional early growth. This hybrid features outstanding stalks, superior staygreen and drought tolerance. Above average grain appearance and grain protein content.

3241

114 CRM

Excellent early growth and resistance to several diseases make 3241 ideal for conservation tillage. Grain growers will appreciate its outstanding stalks, lengthy staygreen and reliable drought tolerance. Good grain appearance with above average grain protein. Top silage producer.

Comparative Relative Maturity (CRM)

With no industry standard for maturity ratings, comparing maturities between companies is usually difficult. Use this rating to compare Pioneer hybrids with competitive hybrids of similar maturity and harvest moisture. These ratings are based on customer side-by-side and research comparison experience. Individual company ratings may still show a variation from the average comparative rating.

HARRISBURG
(Dauphin Co.) — For a
third consecutive year,
the Pennsylvania Dairy
Promotion Program will
be recognizing an outstanding dairy promoter
in Pennsylvania. The
award's focus has
changed, somewhat,
with all active dairy
promoters eligible for
nomination, regardless
of affiliation or farm
background.

"This award is our way of expressing appreciation for the efforts of dairy promoters throughout the state," said Nadine Houck, Promotions Specialist, with the PDPP. "Local and regional promotion efforts are necessary for our Program's activities to be successful."

The award qualifications were extended to include dairy farmers, as well as allied industry personnel, extension personnel, teachers, and others who assist dairy promotion efforts. By focusing on both dairymen and non-dairymen, the PDPP will be recognizing those individuals who work together to increase the awareness of dairy products and the dairy industry.

The 1993 Promoter of the Year will be announced at the PDPP's Annual Meeting, slated for February 2, 1993, in State College. The review committee will select up to five finalists for the award, before the winner is announced in February.

Nomination for the award requires the following information: a completed nomination form, a brief biography of the nominee, and an outline of the nominee's dairy promotion activities.

All nominations are due in the PDPP office by October 31, 1992. Nomination forms are available by contacting Nadine Houck at (717) 787-6903.
