

SAVE \$ ON #1 QUALITY!

Built Ford tough!

- Six new models
- 2WD and 4WD
- Efficient, new Genesis™ engines
- Versatile, hard-working hydraulics
- Roomy new deck designs
- Comfortable cabs

Come on in and we'll show you the model ready to work for you!

Power up with Ford PowerStar™ tractors

The new standard in 66 to 106 hp!

- New transmission choices, including the 16x16 Pulse Command™

Seeing is believing

Every minute you can save at the blower means more loads per day and more overall productivity. Let us demonstrate the New Holland Model 40 forage blower and we believe you'll agree you can increase your silage productivity. The Model 40, with 20 percent greater tip speed than previous models, center fills silos over 80 feet high. The Whirl-A-Feed® table spins the crop into the blower housing at high speed, making more efficient use of your tractor's horsepower. See us soon for a demonstration of the Model 40.

Total performance for big crop harvesting

You get total performance when you harvest your crops with a Model 900 forage harvester. Total performance begins at the cutterhead. The 12 knives of the 21-inch cutterhead give you uniformly cut, high-quality forage. Other features on the "900" include:

- Optional Metalert® II electronic metal detector—protects cutterhead and your valuable animals
- Electromagnetic clutches—give instant response in controlling feedroll and attachment drives
- Easy-adjust shearbar—makes adjustment fast and precise

Stop in soon and see the Model 900.

First in durability

Surveys show owners rate New Holland grinder-mixers as the most durable. That's because Ford New Holland builds them right and backs them with quality parts and service. The Model 358 has a 125-bushel tank that's specially designed to eliminate bridging. An optional electronic scale assures accurate control of rations. Stop in and see the durable Model 358 grinder-mixer.

We have a spreader for any farm

Ford New Holland offers six quality spreaders to match any farming operation. All New Holland spreaders clean out fast to make quick work of dirty jobs.

Model	Capacity (bu.)
125	108
135	138
145	177
155	217
185	287
195	410

- **Bonded Protection**, the exclusive lifetime guarantee, covers the polyethylene floor and steel sides. Ask us for details.
- **Corrosion-resistant steels** are used throughout for tough, long-lasting construction.
- **Plus adding optional slurry sides** on the Models 145, 155 and 185 increases capacity up to 25% at a fraction of the cost.

Load...unload faster and easier

When you're working the big loads you need the Super Boom advantage — extra reach. With more forward dump reach you can center

load your largest spreader from one side so you get an even load. The result: faster loading, fuller loads and easier unloading. With level bucket lift you load more and lift higher... with less spillback. And, with a longer wheelbase there's more stability and safety. So, why get stuck with anything else? Find out just how good a skid-steer loader can be.
