## To Keep Your Cattle Up and Running.

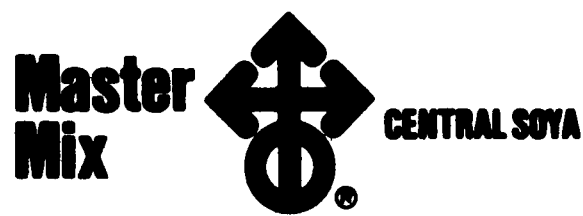

Every time you upset your cattle's daily routine, they suffer stress. Weaning, shipping, receiving—all of these activities contribute to appetite and weight loss. Which means you lose profits.

But with the Master Mix® Stressfighter program, you can battle the devastating effects of cattle stress.

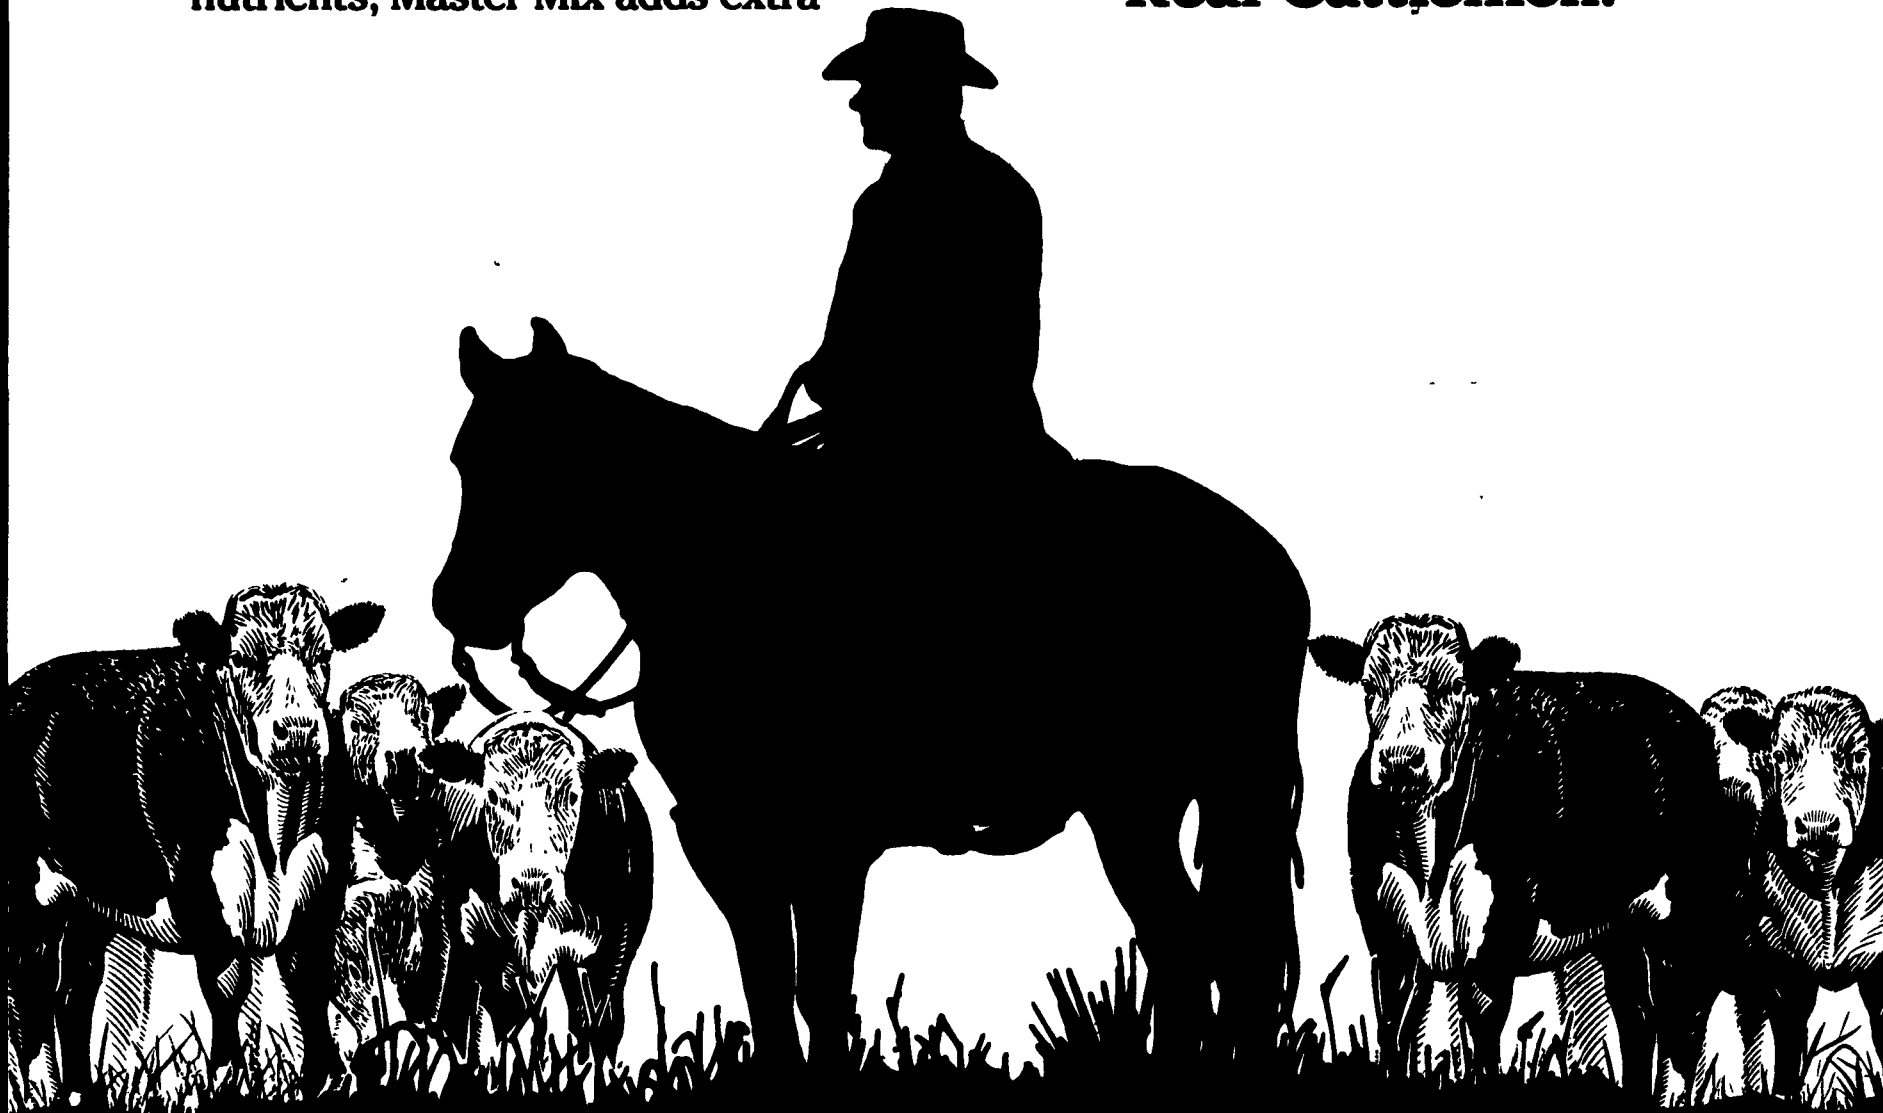

Specially formulated after years of research, Stressfighter feeds contain a palatable mixture of select roughages, proteins and energy to encourage healthy gains. And since stressed cattle often lose vital nutrients, Master Mix adds extra

fortification of niacin and B-vitamins to Stressfighter feeds to return your calves to top condition.

Cattlemen across the country credit the Master Mix Stressfighter program for keeping their cattle "up and running." You can, too. Contact us for more information.
