Does Not Effect Oil Filters
FINALLY! AN OIL ADDITIVE THAT REALLY WORKS!
Does Not Contain PTFE or Moly
Satisfaction Guaranteed Or Your Money Back

Increases MPG
Less Wear
Non Flammable
IXL
Anti-friction Metal Conditioner
Efficiency is our Newest Resource
Science brings a new dimension to Anti-Friction
A metal conditioner product ahead of its time, IXL will give your equipment priceless protection. IXL gives protection far superior to just oil or lubricants. IXL is specifically designed to be used in: (NEW) and (USED) gasoline & diesel engines, compressors, automatic & manual transmissions, hydraulics, gear boxes, bearings of all types, turbos, pumps, and much more. IXL is a metal conditioner which treats all ferrous metals 3 to 5 microns deep, thereby making the metal surfaces harder, denser and smoother. These results are minimum metal wear, giving maximum engine and machine life. IXL reduces heat, friction, and wear, up to 75% without changing tolerances, reducing friction will release energy previously expended to overcome ordinary mechanical resistance. This energy is now available as a positive force, working to increase power, performance and fuel savings. IXL, also helps maintain and recondition seals and gaskets, by keeping these items pliable, firm, and flexible. It will help prevent leaks, IXL is not a lubricant fortifier, such as PTFE, Moly, or graphite. IXL is biodegradable, NON-TOXIC and environmentally safe. IXL is one of the highest quality products on the market today.
