Like all fertilizers, manure application rates affect the quality and yield of your crops. That's why your White-New Idea dealer can help you set up your New Idea spreader to apply manure at a rate that matches your soil nutrient needs.

With commercial potash costs of \$150 per ton, using manure could mean a \$15 per acre savings. In fact, applying manure at a rate of three to six tons per acre—

instead of the 20-ton rate commonly used today—can save you \$7500 on just 500 acres.

So test your manure and soil. Then see your White-New Idea dealer for all the manure application rate details.

Truck-mount conversion package available for hauling long distances

- ✓ Conveyor chain replaces all makes T-bar or T-rod links
- ✓ Pre-stressed replacement roller chain eliminates pre-mature stretching
- ✓ Pick up your FREE spreader maintenance guide
