

Thrifty King™

Patented Design/
Patent No. 4,739,727

Electric-free fountains that live up to the Ritchie® name.

Our new Thrifty King™ fountains help keep water cool in the summer and free-flowing in the winter without using electricity. The new simplified designs and extra insulation mean less chance of break-downs and freeze-ups. And because they're from Ritchie, they're built to last.

Optional heat source allows all models to be installed on existing tile.

Model CT1 Cattle One-Drink

Waters up to 50 head
Part No. 16271
28" x 20 1/4" x 19" high
Also available in a four-drink model. See specification chart on back cover for details.

- Elliptical closures "up" making it easy for small livestock to drink.
- Flotation seal with no moving parts.
- Meets Grade A dairy requirements

Model CT2 Cattle Two-Drink

Waters up to 100 head.
Part No. 16299
42 3/4" x 24" x 19" high

All Units

- Large service opening on top for easy access.
- All stainless steel hardware.
- 3-4 inches of foamed urethane insulation.
- Reliable Ritchie float and valve.
- UV inhibitors prevent cracking and fading.

Model HG4 Hog Four-Drink
Waters up to 160 hogs.
Part No. 16260
31 1/4" x 31 1/4" x 8" high

Model HG2-1 Hog Two-Drink, One-Side

Waters up to 80 hogs
Part No. 16298
31 1/4" x 24 1/8" x 8" high

Model HG2 Hog Two-Drink
Waters up to 80 hogs.
Part No. 16259
31 1/4" x 20" x 8" high

- Unitized one-piece polyethylene plastic design prevents heat loss and damage, and is easier to install!
- Reinforced lifting lids and stainless steel bite guards

The third dimension equals the drinking height.

WATER THAT WON'T QUIT.

Electric (286W, CSA approved)

Low-Cost FUERST FLEXIBLE TINE HARROW

Original "Spreading Action"® tines give better coverage at much higher speeds. Adjusts without tools to provide the right penetration for a big variety of jobs!

PASTURES: Increases quality and quantity of feed from pastures. Aerates to stimulate growth and improve moisture penetration. Scatters droppings, reducing parasites. Prepares soil for overseeding without disturbing existing growth. Works in seed and fertilizer. Many owners report pasture yield increases of 15%.

HERBICIDE INCORPORATION: Independent research using black light photography proves the Fuerst Harrow behind your disk or cultivator gives you "near perfect" incorporation in one pass—better than implements costing several times more! Shreds trash as it prepares & levels seedbeds.

BROADCASTING SMALL GRAINS AND GRASSES: University of Illinois found overseeding by broadcasting followed by a Fuerst Harrow a superior combination, out-performing equipment costing more than 10 times as much. Pulled behind the broadcaster, it covers seed to desired depth in one time-saving operation.

SHREDS STALKS: Shreds and spreads stalks in spring ahead of no-till and ridge-till planting. 4 to 42 ft. widths. Flexes to cover every inch at 6-8 mph. No maintenance. Easy to use and store. Insist on the original "Spreading Action"® tines.

CHOICE! FOUR MODELS

SOME MODELS IN STOCK

MODEL 170
5 Ton Unit

MODEL 200
6 Ton Unit

MODEL 240
7 Ton Unit

MODEL 350
10 1/2 Ton Unit

Four models... one just right for you! Nu Hawk manure spreaders offers four ways to economically handle your fertilizing needs. Each model provides an option for any

size operation at an "easy to handle" price. So take your pick of the litter, and choose a spreader that offers a perfect fit when it comes to size, durability, and price: Nu Hawk by Ideal Industries.
