SURFACE DRIVE SILO UNLOADER

MODEL 120 CONVEY-N-FEED® END CHARGE FEEDER

Deep-trough, air borne 14 in. belt carries 27% more feed than a flat 16 in. belt. 105% more than a flat 12 in. belt. Also, because 46% of the belt rides over thin air - instead of sliding on metal surface there's less drag. Requires less HP, less energy, reduces wear on the belt. Belt returns conditions for reduced friction.

Unmatched capacity for single or divided lots
