**Poly Square Means Healthier Calves**

All-Season

Big Foot 5'x7'6"

New Year Special...

The Poly Square Big Foot is constructed of Opaque material to eliminate the solar effect. It blocks out sunheat-not sunlight. Poly Square's inverted ribs and 5'(W)x76"(L) make it the biggest unit on the market today and extremely wind resistant. It has no pop rivets which means no breaks or cracks for snow and rain to sift in. The unit weighs 100 pounds plus manger & buckets. And Poly Square Big Foot is large enough so your calf can lay in the center, away from cold walls in the winter. Use Poly Square with our side feed station and bottle holder which is perfect for use with a fence in a more traditional setting.

**New Side Hay Feeder** — Made especially for Poly Square Big Foot, no other unit has this feature. Also has a center roof vent for better air movement.
