FOR POULTS **CHORE-TIME** H-2

A quick turn opens feed chute ready for brooding

Then feed fills the pans so poults can see it and start eating

Our Model H2 Feeder starts poults fast. In only a few weeks they can leave brooding house.

FOR GROWING-FINISHING **CHORE-TIME** ATF

After brooding, birds go into either growing or finishing house using our big feeders

Coolair 48" FANS

Power is applied through V-belts directly to the propeller with blade load concentrated directly over the bearings to eliminate overhang bearing load.
