PROFESSIONALS.**
They'll tell you
how they
produce.

**CAN YOU AFFORD
NOT TO OWN AN
AXIAL-FLOW
FROM HOOBER?**

The Reason Axial-Flow Combines Are More Productive - THE ROTOR!

The Single Rotor design
is **SIMPLE!**

Only a single rotor to thresh and
separate. Eliminates the straw-

walker assemblies common to
conventional combines. Less
moving parts means less main-
tenance, less downtime.

The Single Rotor Design
is **HIGHER QUALITY
GRAIN**

Multiple threshing action of
axial-flow reduces kernal

damage and holds elevator dock-
age to a minimum.

The Single Rotor Design is
MORE PRODUCTIVITY!

When your crops are ripe and ready to
harvest, Axial-Flow allows you to move
faster than with a conventional com-
bine. The
rotor's large
throat means
no bottle-
necks up
front.

You'll be
able to
harvest at
top speed
for maximum
productivity, even on side-hills.
