THE CLAAS HARVESTER

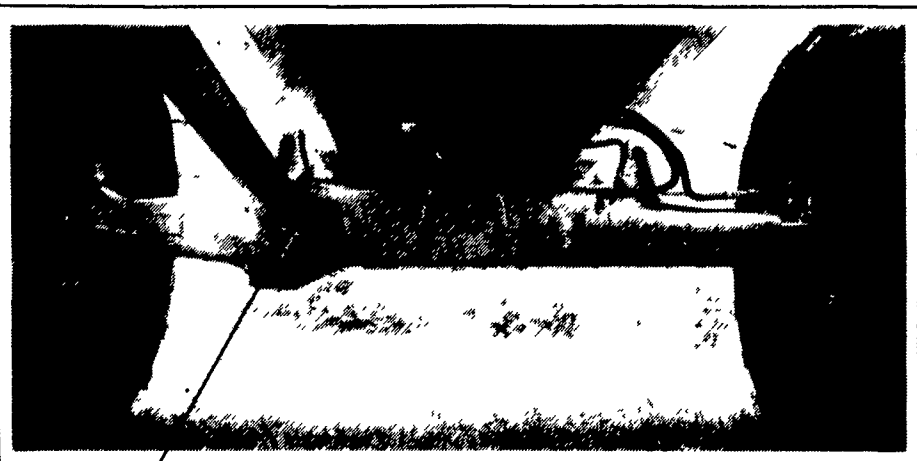

TOTAL CONTROL

With CLAAS Autopilot installed you steer automatically along the rows of corn, like a train running on tracks.

POWER AND ENDURANCE

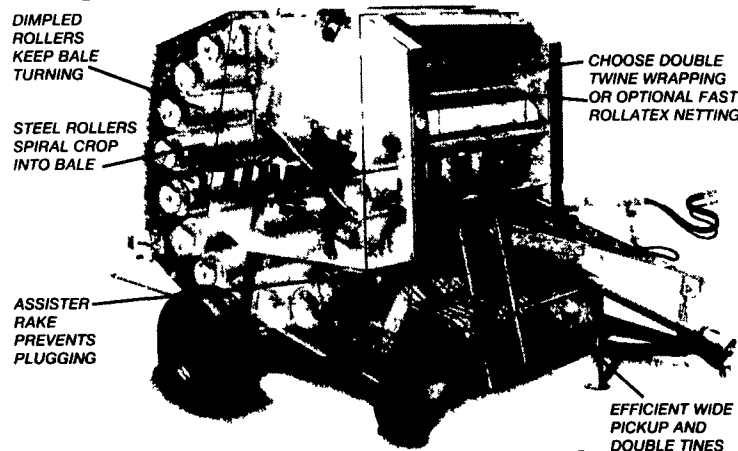

The Claas 4-trac mechanical four wheel drive system is available as an option on all Jaguar self-propelled foragers. It provides all the traction you

need to cope with the toughest of harvesting conditions and gives directional stability on hillsides. Each of the four wheels pushes the

machine forward, regardless of the ground conditions. The four wheel drive can be engaged and disengaged on the move.

Owners say:

"Tight bales, fast, no trouble"
