

In grain bodies, aluminum makes Sense.

Eby Aluminum Grain Bodies pay off in dependable long-term service. Their all-aluminum construction means:

- Greater payload efficiency
- Maintenance-free service
- Substantially higher resale value.

If you think that steel is cheaper, think again. We can show you how aluminum actually saves you dollars in the long run.

Eby's time-tested design is available in lengths to 24' and a 48" standard height; optional heights include 54", 60" and 72". A long list of standard features such as tie rail, built-in steps, aerodynamic uprights and Harsh hoist is complemented

by a full range of custom options, including tailgates, Wahpeton tarps and chute. When you select your next grain body, consider the value that aluminum offers. It's a worry-free investment in your future.
