

Maturity Zone 1

(Continued from Page 34)

Members of the county based extension staff assisted in conducting these tests. Their efforts were essential to the successful completion of the trials, and were greatly appreciated.

This report represents the combined efforts of extension, research, and service personnel in the Departments of Agronomy and Plant Pathology (M W Johnson, and J E Ayers)

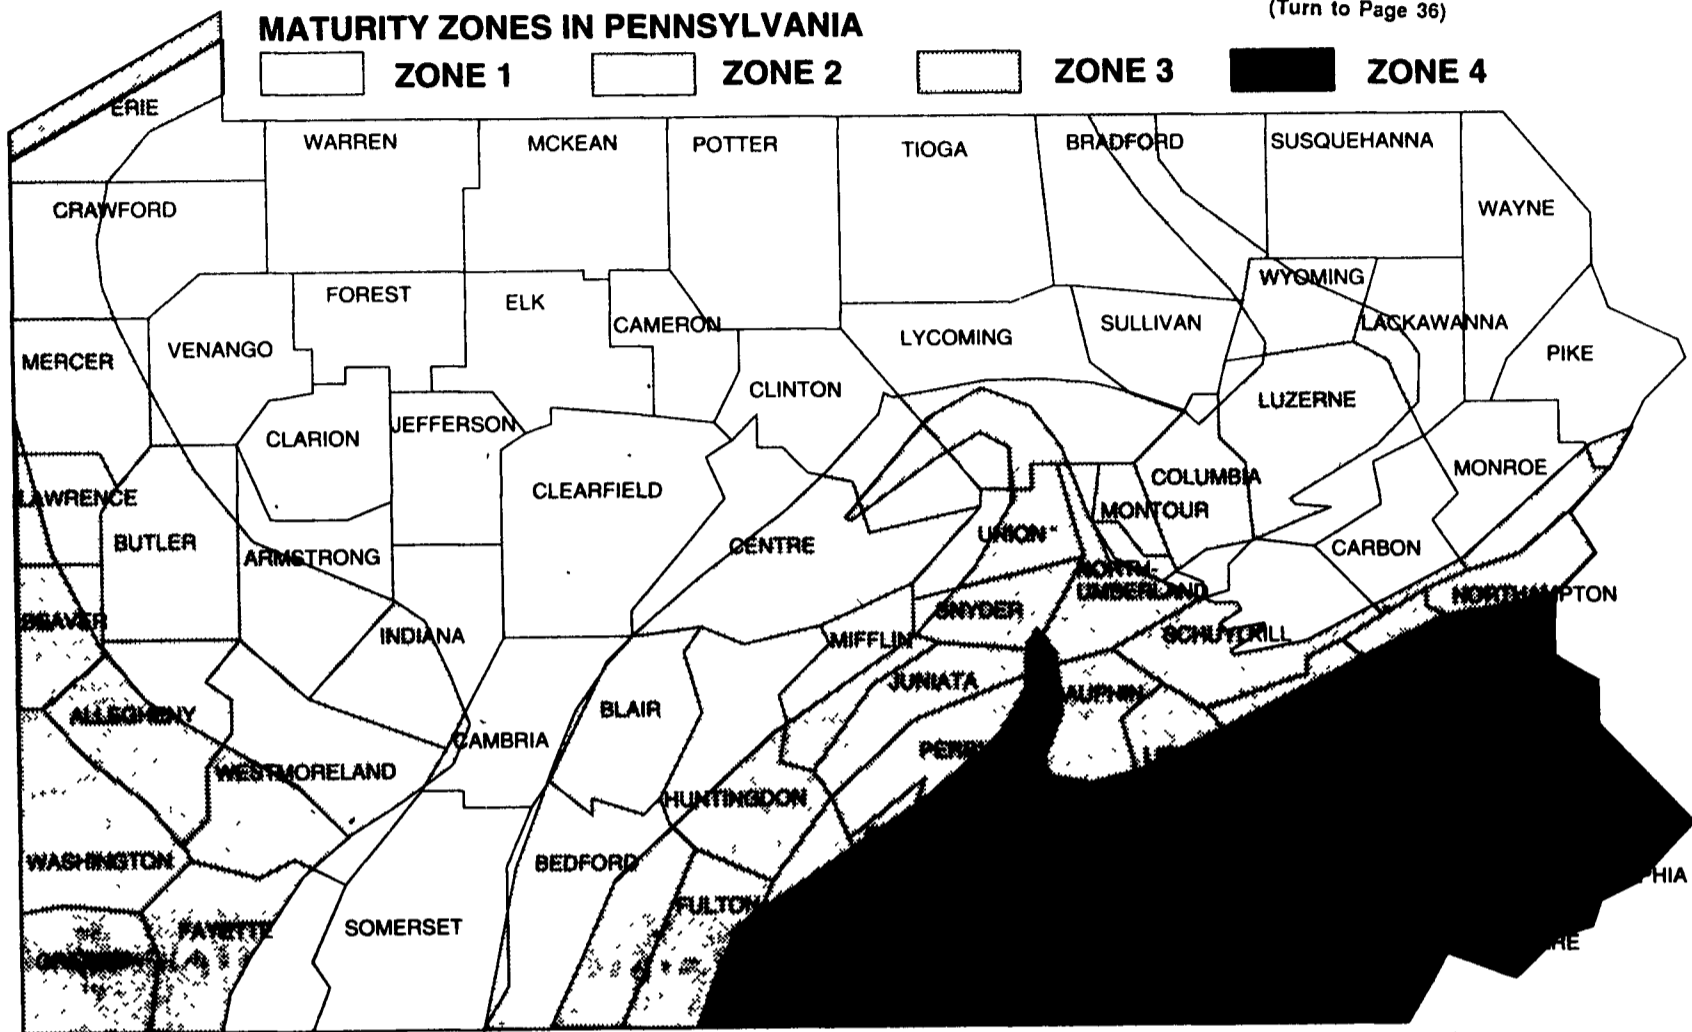

The tables in this report may be reproduced only in their entirety.

Early medium-season hybrids (Maturity Zone 2) 1992 results

Growing conditions

Planting in this zone was begun on May 7 and completed on May 21. Soil moisture levels were high, thus delaying planting at several locations. Soil moisture tended to be high throughout most of the growing season. The Lycoming County location suffered some from excessive soil moisture. Heat units were below normal throughout the growing season. Because of this plants matured slowly and grain dry-down was delayed. Harvesting was begun the

HYTEST BRAND CORN DOES IT AGAIN ... ANOTHER CHAMPIONSHIP SEASON!

NCGA CHAMPIONS

HYTEST Brand Corn has done it again in 1991! Two National Championships and 4 State Winners in the National Corn Growers Association Yield Contest.

Mr. James C. Justice II of Beckley, West Virginia was named the Class A, Non-Irrigated Division National Champion with a yield of 259.0697 Bushels per Acre and the No-Till Non-Irrigated Division National Champion with a yield of 251.7041 Bushels per Acre. These yields were also the Virginia State Winners. HYTEST Brand HT650A was used for both wins.

Mr. Jim Russin of Sharon, Connecticut was named the Class A, Non Irrigated Division State Champion with a Yield of 178.8533 Bushels per Acre using HYTEST Brand HT650A.

Mr. Joe Matejik of Mechanicsville, Pennsylvania was named the Class A, Non Irrigated Division State Champion with a Yield of 200.5841 Bushels per Acre using HYTEST Brand HT736.

PROVEN PERFORMANCE

HYTEST Brand Corn has had 16 State Winners and 3 National Champions out of the east in the past 2 years! This is a record of performance many larger National Brands can't match!

RESEARCH AND DEVELOPMENT

The same careful breeding, testing, and selection process that went into producing

these Champion Hybrids goes into all of our varieties. Each variety, under the proper conditions, has the potential to be a Champion.

HYBRID SELECTION

Your HYTEST Brand Sales Representatives and Regional Agronomists are trained to help you select the best variety for your particular growing conditions. They will follow up with technical assistance right through harvest time.

TOP SELECTIONS FOR 1993

Each season, after review of the many test plots, demonstration plots, and numerous grower's fields, Joe Butwin, Manager - Farm Seed at Beachley-Hardy develops his own special "favorites" list to share with all of us. Joe's choices this season are:

NORTH	SOUTH
HT7224-SX - 90 DAY	HT7510-SX - 113 DAY
HTX7228-SX - 95 DAY	HT7728-SX - 116 DAY
HT318-SX - 100 DAY	HTX7748-SX - 118 DAY

YOUR CHAMPIONSHIP SEASON

Championships are nice, but what's really important is producing the highest grain and forage yields possible in the most cost effective manner. HYTEST Brand Hybrid Corn Seed will allow you to do just that. Proven consistently season after season!

NEWS FLASH
