Cooperators and locations

Late-season hybrids were evaluated on farms of the following: Joel Wenger and Robert Breckbill, Franklin County, Frank Yost, Cumberland County, John Yocum, Lancaster County, Kermet Schegel, Berks County, and Wiley Gehman, Lehigh County

Results of the tests for short season, early medium season, late medium-season, and late-season hybrids are available as separate reports from county offices of Penn State Cooperative Extension

Where trade names appear, no discrimination is intended and no endorsement by Penn State Cooperative Extension is implied

Issued in furtherance of Cooperative Extension Work, Acts of Congress May 8 and June 30, 1914, in cooperation with the U.S. Department of Agriculture and the Pennsylvania Legislature. L.F. Hood, Director of Cooperative Extension, The Pennsylvania State University

CORN TALK NEWS

PENNSYLVANIA MASTER CORN GROWERS ASSOC., INC.

Members of the county based extension staff assisted in conducting these tests. Their efforts were essential to the successful completion of the trials and were greatly appreciated.

This report represents the combined efforts of extension, research, and service personnel in the Departments of Agronomy and Plant Pathology (M.W. Johnson, and J.E. Ayers)

The tables in this report may be reproduced only in their entirety.

Corn Growers To Honor Top Producers

ST. LOUIS, Mo. — When corn growers meet in San Antonio, Texas, February 21-23 for the 1993 Corn Classic, they will pay tribute to those among them who excel as producers and industry leaders.

More than 2,500 registrants are expected to attend the

National Corn Growers Association's (NCGA) 35th anniversary Corn Classic.

The National Corn Yield Contest (NCYC) state winners will be honored at the NCYC State Winners Luncheon.

The NCYC State Winners Luncheon, sponsored by Asgrow Seeds, begins at noon on Monday, February 22. State winners receive two complimentary luncheon tickets. Additional tickets may be purchased in advance by calling NCGA, (314) 275-9915. Serving as comoderators are farm broadcaster Colleen Callahan and Lee McCoy.

On Monday evening, the NCGA awards banquet, sponsored by American Cyanamid, recognizes NCYC national winners and NCGA special award winners. The NCYC national winners will receive trophies courtesy of Monsanto. The event also features Dale Minnick, a humorist and motivator, whose message will have you on the edge of your seat. Tickets to this event are included in the NCGA Corn Classic registration fee.

In addition to honoring outstanding corn growers, the Corn Classic includes a wide range of educational opportunities and marketing sessions as well as entertainment featuring country music stars Crystal Gayle and Lionel Cartwright. Also on the Corn Classic program is motivational speaker Tom Sullivan.

Corn Classic's trade show will display the best in new production technology and equipment innovations. Corn Classic officials expect agribusinesses to fill more than 250 exhibit spaces.

To register for Corn Classic, call NCGA at (314) 275-9915.

WARNING, ALL SILO OWNERS

Check your silo now for rotten staves. If you have been using your silo for 10 to 15 years for either corn silage or haylage, it is time to SHOTCRETE.

RESURFACES INTERIORS:

- Coats the silo's interior
- Protects feed in storage
- Durable, tough, acid resistant
- Increases useful life
- Economical

Before The silo's interior with plaster damaged and stave exposed

After The surface is reconditioned, and a new thick tough surface will protect stored feed

REPAIRS HOLES:

- Repairs even large holes
- Up to twice the strength of the original stave
- Rapid application
- Durable surface

Before A hole is worn completely through the silo wall

After With the hole repaired by Shotcrete and a new surface applied the silo is ready for years of use

EXTENDS USEFUL LIFE:

- Support for old foundations
- Special repairs can be made quickly and economically
- Little or no forming needed
- Stronger than the original

Before The bottom part of the staves are completely worn away

After The Shotcrete System repairs and replaces the missing structure.

Shotcrete is also good for repairing stone walls

When you think your silo is beyond repair THINK OF SHOTCRETE!

Harvest your crop with the best in self-propelled harvesting

If you custom harvest as well as chop your own forage, a self-propelled harvester like the Model 1915 can help you harvest more crop at peak quality. The fuel-efficient 270-horsepower diesel engine and the 24-inch, 12-knife cutter-head give you high-capacity day-in and day-out harvesting. And the exclusive automatic knife sharpener and automatic shearbar adjuster, called Accucut™, combine to give you precision-sharpened knives and a reset shearbar, all from the comfort of the cab.

Stop in today and let us show you the other features of the "1915." Or better yet, let's set up a time to demonstrate this harvester in your own field.
