**On Their
Remodeled
42' x 314'
Commercial
Breeder House**

● **CHORE-TIME® ULTRAFLO®**

THE FEEDER THAT HAS TAKEN OVER THE CAGED LAYER INDUSTRY

Chore-Time's new and exciting auger system is so fast it fills all troughs in a 500-ft. house in only 5 minutes — then all birds eat simultaneously. No picking over of feed. It's the ultimate breeder feeder!

- Fast feed delivery—less competition, less stress, better performance, less picking over of feed.
- Easy to operate, no feed level adjustment is ever needed.
- Uniform ration throughout the house—uniform birds.
- Available with hens-only or "all-birds" grill.
- Use Chore-Time WEIGH-MATIC® bin to allocate daily ration before feeding.

Clockwise from above: auger acts as a grid so birds won't rake and throw feed. Hens only in each prevents males from eating up to 4 1/2 HP each pound in its per loop for houses. 600 are used in a maximum of 2 HP per 600 house diagram shows model for separate max feeding control unit.

Each day's ration of feed is weighed in weigh bin for next day's feeding.

Chore-Time WEIGH-MATIC® System

Separate bin to feed a different feed to males if you choose.
Feeder fully suspended so height is adjusted easily raise all the way for easy cleaning.
Feed line for males (See back of sheet).
Weigh scale for male ration.
1/2 HP drive motor propels auger.

JAY-DEE NEST SYSTEM WITH AUTOMATIC EGG GATHERING

- Gently sloped laying screen provides a comfortable nest for the hens while allowing eggs to roll safely from the nest
- The wide 8" belt provides ample carrying capacity for eggs.

- The air close-out slowly pushes the hens from the nest each night
- An electric timeclock lets you set the time that roosting birds are pushed from the nest

● **BURCH COOLER WITH BUILT-IN HEATER**

FEATURING:

● **VAL FLOOR WATERING SYSTEMS**

● **Coolair NCF 36" Fans**

With Belt Tighteners
