

TRI-COUNTY CONFINEMENT SYSTEMS, INC.

Total Swine Confinement Systems Center

Recently Completed 1200 Sow Feeder Pig Unit
Tunnel Ventilated Gestation (4) Farrowing Rooms
(7) Nursery Rooms

3000 Head "Double Wide"
Deep Pit Finishing Building

CONFINEMENT STALL

Developed recently in our R&D farm. Our goals were convenience, safety and durability. The low back and flat top rails are easy to reach over with no sharp edges. Stainless steel rear legs and front feet along with solid steel horizontal rods through punched uprights provide the

strongest, most durable stall ever produced by Tri-County (21"-24" O.C. x 86").

PIG SAVER "DUTCH CRATE"

Developed through testing in our research farms. the

goal was to develop a crate that nearly eliminates crushing, due to lay ons, unmatched durability and be easy to work around. All this has been achieved by a unique gravity filprail that forces sows to tie down slowly and using stainless steel for rear doors and legs, proven horizontal and solid steel rod construction. All this at a reasonable cost. Crate also can be installed on an angle.

NURSERY PENNING

Nursery penning has been improved by the use of an optional solid stainless steel panel on the front gates which keeps walkways clean. Stainless

steel verticals on penning eliminates corrosion where penning attaches to the floor. Stainless steel drinker pipes & mounting brackets also increase durability.

FINISHING PENNING

Optional stainless steel verticals and fasteners offer improved durability over other similar types of penning. Loop and flapper latch arrangement eliminates the use of drop pins.

Stainless steel fence line feeders provide excellent durability and a minimum of waste.

NEED MORE FARM INCOME? Feeder Pig & Finishing Units Have Proven To Be An Excellent Source Of Full Or Part-Time Income For Many Successful Producers. Tri-County Can Assist You With Cash Flows - Financing - Nutrient Management - Building Permits

CONCRETE MANURE TANKS

Environmental safety is an increasingly important part of livestock production. Concrete storage tanks offer maximum safety against ground water contamination and unmatched durability. Tri-County can build waste storage tanks for the small or large operations engineered for ASCS approval.
