**Comments From Charlie
And Roland Moore:**

"Since changing to Ultimate EXT the cows are holding their weight and milking very well. When they were on beans they were grossly thin. We're happy because the program is working. Our fat is low, but we haven't been breeding for fat for the last 5 years. Only 10-15% of the herd is registered, but most others are fourth generation and are ID'd"

The feeding program consists of corn silage, alfalfa haylage, ryelage, HM shelled corn, NA 40D plus, and Ultimate EXT 32%.

**Moore Farm
Chester Co., PA**

Purina Mills, Inc. would like to thank the Moore family, Oxford Grain and Purina District Manager Phil Jaquith for sharing this information.

Mr. & Mrs. Charles Moore, Penny & Roland Moore
