Farmhand WingPackers break clods, level seedbeds...then gently firm the soil to reduce air pockets and seal in moisture.

Flat fold WingPackers range from 19 to 36 wide. Behind a disk harrow or field cultivator they're an ideal final tool before planting. Behind a drill, they gently but firmly pack soil to increase seed-to-soil contact improving germination for even field stands.

- Check these high-performance features:
- All units flat fold to a safe transport width of 13'6".
  - Single hydraulic control for transport and to raise/lower wings.
  - Heavy-duty tubing and plate construction with 4" x 6" tool bar.
  - Choose smooth 6-spoke rollers or crowfoot rollers for more aggressive action.
