**Unmatched serviceability.** The entire ROPS/FOPS structure pivots back and out of the way and locks in the "up" position for full and easy access to drive and hydraulic components. The spring-loaded, counter-balanced ROPS/FOPS makes roll-back an easy, one-person operation that takes only minutes. In addition, the rear grill swings open and the engine cover swings up for access to the engine, battery and filters.

**North America's #1-Selling V-Tank Spreader**
