## Self propelled forage harvesters for highest capacities and universal operation

CLAAS JAGUAR self propelled forage harvesters are professional machines. Profitability demands high working quality and high speed of operation. This can be achieved with advanced technology and fully matured machinery. Today's farmers and contractors make competent decisions. These professionals have made the CLAAS JAGUAR Europe's number one.

**Discover CLAAS**  
THE HARVESTING SPECIALIST

## MYTH NO.1

"Variable chamber balers produce denser bales."

**FACT:** No other round baler on the market matches the density of a Claas fixed chamber baler. Independent government tests prove bale density from the Claas fixed chamber system exceeds all variable chamber balers tested (it beats some competitors by up to 45%)

Fact is, greater density means fewer bales per acre. And that means more efficient feeding

SEE YOUR CLASS DEALER FOR ALL OF THE FACTS BEFORE YOU BASE YOUR BALER PURCHASE ON FICTION.

## Who makes the most practical tractors?

Last year, more value-minded farmers picked Massey-Ferguson than any other make.

In fact, one of every five tractors now sold in the Western World is an M-F. Which makes Massey-Ferguson the Western World's largest tractor manufacturer.

One of the big reasons for this popularity is the great value of the 50-90 PTO hp line of M-F 300 Series tractors.

They all give you the torque, economy and reliability of world-famous Perkins diesel engines and all the advantages of advanced Ferguson system hydraulics. Plus you get the practical features you want, like hydrostatic steering as standard equipment.

Massey-Ferguson engineers put a lot of time and effort into designing these tractors to save more of your time and effort. They're incredibly easy to operate and maintain. And they have one of the best reliability records of any tractor ever made.

We'd like to show you why an M-F 300 Series tractor can be the best value for your hard-earned investment.

## Practical choices.

MODEL	M-F 362	M-F 375	M-F 383	M-F 390	M-F 390T	M-F 399
HP*	55	60	73	70	80	95

\* Manufacturer's rated PTO horsepower. All models available with 2 or 4-wheel drive. Some can be equipped for Wide Row Crop or Low Profile applications.
