

# Adams Conservation District

(Continued from Page C10)

for Lake Okeechobee were neither easy nor cheap. It is estimated that the economy in that region has been dealt a \$30 million blow in order to clean up the lake. Lanyon went on to conclude that "Nutrient management is not limited to neat little borders." Farmers, industry, consumers, and neighbors are all affected.

The conservation district presented its annual awards. First, the "Outstanding Cooperator" award was given. This award goes to a farmer who has continually implemented conservation work over the years. Mike Keiser was given this award. Keiser has been an active cooperator since the early 1980s. His home farm is in the Chesapeake Bay Program and a newly acquired farm has also been entered into the program. Not only has Keiser completed soil conser-

vation work on his own ground, he has also shown the same care for the ground he rents.

Donald Peters and John Sanders are sharing the 1992 "Farmer of the Year" Award. This award goes to a farmer who has done a great deal of conservation work over the past year. Farmer John Sanders and landowner Donald Peters installed two waterways totaling more than 775 feet and added tile to protect them. Sanders also installed a 300-foot waterway and protective tile on another farm he rents. Sanders has been an active cooperator for many years. Peters has become active in conservation only recently and it is quite rare to find a non-farming landowner who is interested in soil conservation, according to the district.

In October 1992, Art and Mary Wolfe were presented the Pennsylvania Association of Conserva-

tion District's "M.K. Goddard Forest Resource Management Award" at the annual awards banquet in Allentown. The owners of 234 acres in Northern Adams County were given this award so that they could be honored locally. The Wolfes have planted some 15,000 trees and show no signs of quitting.

The final recognition of the night was given to those farmers who had completed their Chesapeake Bay Program contracts in 1992. Ten farmers received a farm sign, certificate, and lapel pin.

The Adams County Conservation District presented Michael Keiser, left, with the "Outstanding Cooperator Award" for his continued efforts in soil conservation over the years on both his own farm and rented land. District Chairman John Lott presented Michael with the honor.

## Ag Loan Officer Named

LANCASTER (Lancaster Co.) — John E. Moose of Lititz has been named vice president/agricultural loan officer by Fulton Bank.

Moose holds a bachelor's in business management from Indiana University of Pennsylvania. He is also a graduate of the Bankers School of Agriculture at Cornell University, the Pennsylvania School of Banking at Bucknell University, and the Colgate-Darden Graduate School in Commercial Lending, University of Virginia.

He is a member of the agriculture committee of the Lancaster Chamber of Commerce.

Prior to joining Fulton, he was vice president/assistant director of the Agri-Finance Dept. at Hamilton Bank.

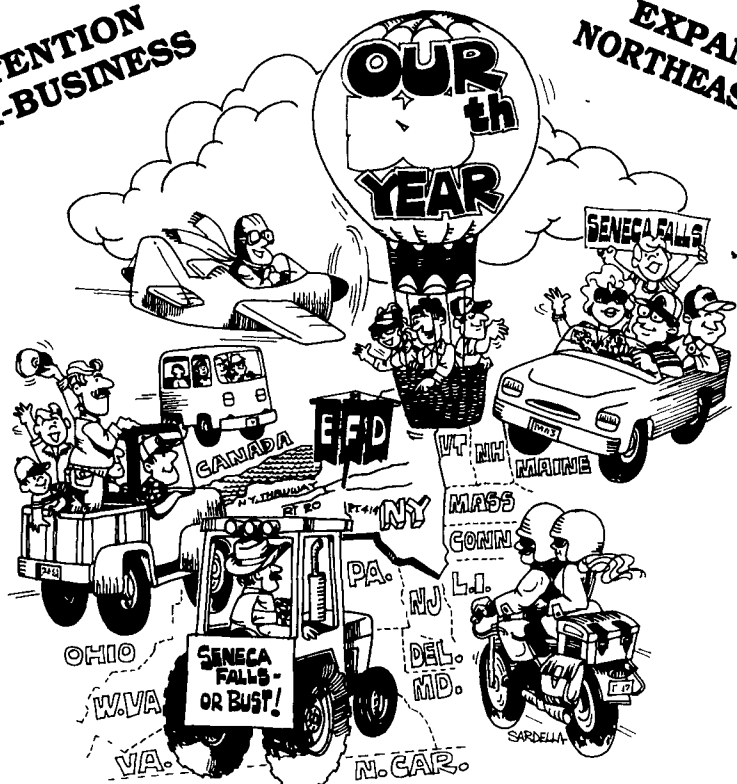

Landowner Donald Peters, left, and farmer John Sanders, right, became the "1992 Farmer of the Year" for the exceptional amount of soil conservation work done on Peters' farm and on other farms that Sanders rents. Presenting them with the recognition is District Chairman John Lott.

Receiving the PACD M.K. Goddard Forest Resource Management Award for their continued efforts in tree planting (more than 15,000) and management are Art and Mary Wolfe. They were presented their award at the Adams County Conservation District's annual banquet.
