KELDERMAN AIR RIDE

Adding a Kelderman Air Ride Conversion system to your present suspension will result in a two stage suspension system. This is not to be confused with adding an Air bag mounted above the axle. Allows adding extra spring leaves to increase load rating and still maintain Air-Ride comfort.

The bolt on basic package utilizes an air stem mounted in a convenient location to add or remove air from the system.

Optional 12 volt compressor allows changing air pressure setting on the go.

Currently available for front and rear suspension in **Dodge** Series 250 & 350 trucks. Available soon for **Dodge** Dakota models

Also available for some **Ford, Chevy,** and **GMC** truck models. Special orders available for most motor homes. This option will smooth out the ride on those rough-road fishing/camping trips
