

Great Plains

THE NO-TILL GRAIN DRILL LEADER...

Great Plains delivers good, even stands in a wide variety of soil and residue conditions. The components are simple: The coulter provides a mini-seedbed and the depth gauging press wheel runs smoothly on the soil cleared by the coulter (and then by the opener), ensuring accurate depth control of the opener. The opener delivers the seed to the bottom of the seed trench where the seed is firmed into the moist soil at a consistent depth.

**THERE IS A GREAT PLAINS NO-TIL DRILL
for you — from 7' to 30'...**

**Dedicated to
the science of
no-till seeding.**
