

CONCRETE REASONS WHY A NEW POURED CONCRETE SILO IS YOUR BEST INVESTMENT...

- A. Enhancement of cash flow. Improved forage quality results in consistent, and increased milk production.
- B. "Safe Silo" Our silos meet or exceed industry standards, reducing/protecting lender liability.
- C. Initial Cost. Used or cheap pre-fab silos may have a lower initial cost, but based upon useful life, the new poured concrete silo will have a lower annual cost: due to longer life and lower maintenance costs.
- D. Residual Value. Our new, poured concrete silos are built for "generations of use", and enhance the future value of the farm.
- E. Storage Losses Reduced. Poured concrete silos consistently out-perform all other methods of storing and preserving the total digestible nutrients in forage crops.
- F. Protecting Forage Quality. Oxygen and heat cause the most damage to stored silage and haylage. Our poured concrete silos are the very best system to PROTECT YOUR FORAGE QUALITY... "NOBODY PROTECTS FORAGE QUALITY LIKE WE DO...NOBODY"

NO USED SILOS!
NO REBUILT SILOS!
NO PREOWNED SILOS!
"ALL NEW FOR YOU!!!"

Big Jim To The Rescue!

Big Jim is the best replacement unloader for your steel silo.

It offers greater capacity, more reliability, lower maintenance costs and excellent-quality haylage. You get wall-to-wall compaction during filling for even more silo capacity.

New suspension system eliminates the need for a tripod and external support cables

Big volume bottom unloading conveyor. * Belt shield removed to show detail
