# WORK WATCH

## The Work Watch Is Back!

CLIP AND SAVE

In the mid-1980's we sold hundreds of work watches to hard-working individuals like yourself who needed an accurate, dependable timepiece. They needed a watch that would withstand the dust, moisture, bumps, and temperatures encountered on the farm, in the orchard, and in the woods. Many who bought the work watch told us it was the best watch they had ever owned. Now, due to the past success and the present need, we are again offering the work watch through Lancaster Farming.

Our work watch has all the features needed to endure the punishment you will put it through. The **WATER RESISTANT** seal will protect your watch when you irrigate fields, fix broken water systems, get milk splashed on your arm while feeding calves, or walk the fence in the rain, to find out where your cattle are getting out. Being **SHOCK RESISTANT**, your work watch will continue to work when it is slapped by a cow's tail, a falling board, or the belt shield that your arm slams against when your wrench slips off the bolt. While your watch is scraped by branches, rubbed against walls, and knocked against machinery, the low profile, **SCRATCH RESISTANT**, glass crystal will resist the scratches and cracks that render watches unreadable. Finally, the **BATTERY POWERED QUARTZ** movement of your work watch is accurate to within 2 minutes per year, and does not need to be wound, meaning that your watch will be on time, all the time, without any effort on your part.

A final proof of the strength of this watch and of its suitability to your needs is the warranty. If your work watch stops running within **FIVE YEARS** of the date of purchase, the manufacturer will repair or replace your watch at no charge. This is one of the longest warranties in the watch industry. The manufacturer's confidence in this watch means that you can have confidence in its durability and can know that this is the only work watch you will need to buy for the next five years.
