

HYDRA-SPREAD

HYDRAULIC PUSH-GATE MANURE SPREADER

Made in Canada

The simple and proven design of Hydra-Spread uses reliable hydraulic power to push the load. This feature eliminates troublesome apron chains, gearbox, shafts, and sprockets and replaces them with a simple, dependable, hydraulic cylinder assembly. Sides and floor of the Hydra-Spread are made from super-slippery, corrosion-proof, high density polyethylene. The rugged efficient beater design delivers a fine uniform spread pattern. The all-welded unit frame features heavy structural sections for long life.
