Outstanding Ag Student

Matthew Creacraft, son of Mr. and Mrs. Herring of Fawn Grove, was recently named winner of the 1992 DeKalb Agricultural Accomplishment Award.

The award, sponsored nationwide by DeKalb Plant Genetics, is presented to the outstanding senior agriculture student demonstrating superior scholarship, leadership, and supervised agricultural program. Presenting the award was Dekalb dealer David Gemmill.

Mat attends Kennard-Dale High School, where he has been

president and vice president of the chapter and county treasurer. His agricultural program consists of work on a farrowing operation. Following graduation, Mat plans to attend the American Motorcycle Institute.

As this year's winner, Mat receives a pin and certificate, and his name will be inscribed on a special plaque displayed in the shop lobby. The Dekalb Award, often considered the highest honor a vo-ag student can receive on the local level, is presented at nearly 3,000 schools annually.

Award winners, left to right, front Barry Graver, Stephanie Graham, Jessica Neff, Angie Hershey. Back, Kyle Harnish, Robert Warhahay, James Findley.

Stretch Your Hay

Haybuster Big Bite Tub Grinders

Grind loose hay, bales, all feed grains, cob or shelled corn including high moisture corn. High capacity tub gobbles up big bales at the rate of one per minute or up to 35 tons of loose hay every hour

Haybuster Big Bale Buster

One man operation. Bale Buster picks up bales out in the field or in the feed yard. It shreds bales in an easy to feed windrow as you move along with the tractor. No crowding by cattle so less feed is wasted by trampling

Grinding Your Hay:

- Increases feed value of poor quality hay
- Allows mixing with feed grain
- Eliminates waste of valuable hay

Grinding poor quality hay and grain is a sensible alternative to making your feed dollar go farther. Compare Haybuster. You get more grinder for your dollar.
