**BREWEX - For
Use In Dairy Feeds**

BREWEX is used extensively in complete dairy formulations to contribute utilizable energy. It is a price/performance value when used in dry feeds, liquid feeds and on-farm mixes.
MIX WITH DRY FEEDS: BREWEX is found in commercial pelleted rations for dairy, hogs and poultry as an energy source to replace corn. BREWEX replaces corn on a pound for pound dry basis and provides for improved pellet durability, reduced mineral segregation, dust control and improved palatability in dairy rations.
ON-FARM MIXING
A commercial Jersey dairy farm, having over ten years of experience in feeding BREWEX to partially replace corn finds that:
• BREWEX replaced 5% to 10% corn/day
• BREWEX improves butterfat about 0.1%
• BREWEX mixed with forage reduces mortality due to displaced abomasum
• BREWEX helps cattle to stay on feeds

HIGH TENSILE FENCE...THE FARMER'S BEST INVESTMENT

Testimonial
satisfied

The Beaver Fence Systems are tops! We installed 1 mile of their fence on our farm on Feb. 3, 1993, full size post, 3-1/2 feet deep, excellent braces. We used 5 strand (2 elec.) high tensile, all in place in just 8-1/2 hours! The fence is as straight as an arrow-excellent equipment-very efficient work!

"I am a hard man to convince, but after I saw how Beaver built the fence, I'm ready to put my digging iron away," says David W. Brubaker of Honey Grove Acres, RD1, Box 629 Honey Grove, PA 17035
