Super Spreader

Double Rotating,
Heavy Duty Expellers

Meyer Mfg. Corp. has developed a new style of manure spreader that can handle a wide variety of manure. The double expellor system rips away tough pen or frozen manure and applies it to the field in a smooth, even pattern. The new Meyer unit unloads out the rear, not the side, to prevent debris from coming back to the spreader and tractor. The Super Spreader is available in 260 bu., 325 bu., 360 bu., 390 bu., 450 bu., and 540 bu. units.

**Two Large 20" Augers Help
Prevent Bridging Problems**

Our tank sides are almost straight up & down, not V shaped like other units. The augers are made of tough 3/8" sectional steel flighting. Our auger design cleans the bottom of the tank completely — no frozen manure buildup like beater type spreaders have.

- Lower Loading Height
- Faster Unloading Time
- Trouble-Free Design
- 50% Thicker Tank Steel
- Free Demo

**Meyer 500 & 600 TSS Forage Boxes
Total Speed System**

The High Performance
Wagon Built To Last

Wide Track Five Models To
Short Turn Choose From

Torture Tested
And Field Proven
For Your Satisfaction

Meyer Mfg. Corp. has developed a new style of forage box that can unload at a much faster rate of speed. This is accomplished thru a low range-high range variable speed system. Apron speeds range from 0-7.5' per minute in low range and 0-17' per minute in high range. The Meyer TSS also allows the operator to inch the augers free of material before engaging the apron chain. This box is available in the All Steel TSS or the TSS AL Aluminized model.
