**Save hay Save money**

The New Holland Model 166 windrow inverter can save your hay crop by turning it over to dry, without losing valuable leaves. Get your hay out of the field sooner, before it rains. Or, if it's been rained on, dry it quickly and gently. Make your hay more valuable with the "166".

**NEW! Exclusive design produces best-ever bales**

The unique New Holland Models 650 and 660 Roll-Belt™ round balers make the best quality bales ever. Tight bales—dense bales. Good-looking, square-shouldered bales that hold up to the weather. The patented Roll-Belt design means fast, sure core formation, even in the toughest crops. The adjustable hydraulic belt-tensioning system puts maximum bale density control at your fingertips. And, you can choose from three optional automatic tying mechanisms for the smoothest package ever.
