CONCRETE REASONS WHY A NEW POURED CONCRETE SILO IS YOUR BEST INVESTMENT...

- NO USED SILOS!
NO REBUILT SILOS!
NO PREOWNED SILOS!
"ALL NEW FOR YOU!!"
- Enhancement of cash flow. Improved forage quality results in consistent, and increased milk production.
 - "Safe Silo" Our silos meet or exceed industry standards, reducing/protecting lender liability.
 - Initial Cost. Used or cheap pre-fab silos may have a lower initial cost, but based upon useful life, the new poured concrete silo will have a lower annual cost: due to longer life and lower maintenance costs.
 - Residual Value. Our new, poured concrete silos are built for "generations of use", and enhance the future value of the farm.
 - Storage Losses Reduced. Poured concrete silos consistently out-perform all other methods of storing and preserving the total digestible nutrients in forage crops.
 - Protecting Forage Quality. Oxygen and heat cause the most damage to stored silage and haylage. Our poured concrete silos are the very best system to **PROTECT YOUR FORAGE QUALITY** "NOBODY PROTECTS FORAGE QUALITY LIKE WE DO NOBODY"
- MEMBER: International Silo Association
PA Forage and Grassland Council
