5000 Series Spirit Tractors

It takes a lot more than green paint to make a tractor a John Deere. The 40-, 50-, and 60-hp SPIRIT models are good examples. In fact, many of the features that make our higher-horsepower row crop tractors so productive and reliable can be found in these three models.

Plus, a long list of standard features make them a great value. Like independent PTO, hydrostatic power steering, hydraulic wet-disk brakes, and a lot more.

The cost-effective way to eliminate weeds in your heavy residue

875 Minimum-Till Cultivator.

Your answer to low-cost weed control in reduced tillage fields

Hardy construction and high clearance make this machine perfect for rough minimum-tillage environments.

450 SERIES END-WHEEL DRILLS

Enhanced performance and durability make these drills the benchmark in end-wheel drill design

Uncompromising performance and durability, make the 450 Drill one of today's most popular seeding tools.

Down-pressure is a key factor in obtaining more penetration for consistent seed depth with end-wheel drills. And the 450 Drill provides superior down-pressure—up to 124 pounds per opener—to help you slice through residue and tough soils for more accurate seed depth.

IN STOCK:

WHY ARE THESE THE FASTEST MOVING BALERS AROUND?

IN STOCK:

JD 335 Round Baler Makes 750 Lb. Bales
\$9,890

It's simple. You get uniform bale density throughout the bale — density you need for solid, stand-up tall bales. Bales that hold their shape and, therefore, preserve hay quality.

If your bales stay round, they shed water better. And since John Deere bales won't flatten or "slouch", there is less bale surface touching the ground to wick-up moisture. Dramatically reducing spoilage.

• JD 335 Makes • JD 375, Makes 1000 lb. Bales 750 Lb. Bales
