

## Plan Now To Consign For Fall Classic Sale

Members of the Penn State Dairy Science Club ask for support in getting consignments for the 10th Annual Fall Classic Sale, an educational event run cooperatively by the club and the Pennsylvania Holstein Association, to give the young people an opportunity to experience the planning and execution of a high quality sale. From the left, are Adam Tanis, Cathy Pavelski, Bryan Herring, Kirk Statazhan, Thad Sturgeon (kneeling), Dwight Stoltzfus (kneeling), Kara Tussey, Todd Rabenold, Susan Caldwell, Andy Foster III, and perched on the Nittany Lion, from the left, Susan Bove and Jen Hummel.

UNIVERSITY PARK (Centre Co.) — The Penn State Dairy Science Club and the Pennsylvania Holstein Association are to team up to sponsor the 10th annual Nittany Lion Fall Classic Holstein consignment sale, set for Saturday, Oct. 30.

After last year's sale averaged \$1,841 on 76 Holsteins, this year's sale committee is extremely optimistic about selecting cattle and managing the 1993 Fall Classic Sale, according to a news release from the club.

The sale managers and selection committee met in early May and are to be visiting Holstein breeders in the next few months to select cattle for the sale.

The 1993 Nittany Lion Fall Classic Sale chairmen include Dwight Stoltzfus, of Morgantown, overall sale chairman, and Thad Sturgeon, of Fombell, assistant chairman.

Others involved are Adam Tanis, of Centre Hall, chairman of the Selections Committee; Cathy Pavelski, of Susquehanna, member, and Brian Herring, Farmington.

Other committee managers

include Jen Hummel, of Duncannon, advertising; Kara Tussey, Huntingdon, publicity; Todd Rabenold, Kutztown, finance; Kirk Statazhan, Womelsdorf, marketing and merchandising; Susan Bove, Ann Arbor, Mich., reception; Susan Cadwallader, Salem, N.J., arena preparation; and Andy Foster III, Petersburg, cattle manager.

Most Dairy Science Club members use the fall classic as an educational experience.

The sale provides first-hand experience in selecting, financing, merchandising, preparing, evaluating and managing dairy cattle. Last year more than 50 students were involved in the sale.

The goal for this year's sale is to select approximately 70 top quality springing heifers and young cows. In addition, a select group of top pedigreed calves will be sold.

Those interested in consigning an animal should call either Ken Raney at the Pennsylvania Holstein Association (814) 234-0364, Dwight Stoltzfus at (215) 286-5002, or either Larry Muller (814) 863-4205, or Dale Olver at (814) 863-3914, at the Penn State University Department of Dairy and Animal Science.

In the news release, it was stated, "The Penn State Dairy Science Club and the Pennsylvania Holstein Association appreciate your support of this important educational activity."

## Bury a little residue. Or a lot.

The new White 445 Chisel Plow makes complying with residue guidelines and requirements easy. Options like rippled coulters and chisel points set at 15" spacing leave lots of residue. Concave coulters and twisted shovels set at 12" spacing leave less residue. And these are just a few of the combinations available.

Our deep-till shank option rips

hardpan by tilling 4" to 6" deeper than chisel shanks. This reduces compaction problems. And our leveling bar option provides a smoother surface for your next pass.

With nine models, there's a model with the options to match your residue management plans.

White Row Crop Cultivators are designed for high speed
