16 FERTILIZER

for... **Better yields • Better quality • Better profits**

Better get... TRISERT.

liquid foliar fertilizer with patented triazone slow-release nitrogen is the better foliar. Better because it can increase your yields; it is non-burning even at concentrated rates; it won't volatilize or crystallize; it can be used with lower volumes of water because of its extremely low phytotoxicity. Trisert is highly compatible with crop protection chemicals and other nutrient and, it can be applied by ground or air. TRISERT... better in every way.
