B.T.U.

"BUY THIS UNIT", or one like it to store your high-moisture shelled corn and save a lot of energy. With the cool spring and slow start for a lot of corn fields, this may be another harvest season coming up when the corn dries slowly...

In order to avoid hauling and drying costs, let us build a corn storage unit to preserve your valuable grain at 20%-30% moisture.

To keep your stored corn bright and yellow, you must protect it from oxygen and heat. Our 6" thick concrete walls reflect 38% of light beams, resulting in 780 times more heat-resisting ability than steel, and 25 times more insulating power than steel.

Our 6" thick walls have a very low leak potential compared to pre-fab silos of any kind, and a very low maintenance requirement.

BEFORE SPENDING A LOT OF MONEY FOR ENERGY (B.T.U.'s) TO DRY YOUR CORN, YOU WILL DO WELL TO CONSIDER THE MANY ADVANTAGES OF OUR POURED CONCRETE SILOS...

To unload your corn, we can install the simple auger system, the Laidig 43 unloader, or the Flying Dutchman. Lets discuss the options, and what is best for your situation.

Surprised when you called the authorized dealer for prices on parts for your Hercules™ Unloader???

We Stock a Complete Line of Hercules™ Parts and DIDN'T INCREASE OUR PRICES.

Don't you already pay enough for parts?

Not affiliated with A.O. Smith Harvestore Products, Inc.

ATTENTION HARVESTORE® OWNERS

Are you tired of digging out that old bottom unloader that's eating up all your profit? Let Silo Conversion Company convert your Harvestore® into a usable and profitable top unloading structure.

Ask these Harvestore owners how their silo works w/the top unloader.

ATTENTION FARMERS
Strengthen And Reseal Your Silo With Shotcrete

STRONGER AND WILL OUT LAST PLASTER

IS YOUR SILO READY TO BE FILLED WITH GRASS SILAGE?

PLEASE CHECK YOUR FILL PIPES AND DISTRIBUTORS NOW BEFORE FILLING SEASON

S&S Silo Service prepares the silo surface by using a 3,000 lb. pressure washer, thus making the silo moist, making a much better surface to bond shotcrete. After shotcreting, S&S always takes away any roughness by applying a steel trowel finish. The excellent bonding of shotcrete to the silo will keep out moisture and prevent mold from growing on the side of the silo.
