Here are the facts why ULTRAFLO® outperforms chain feeders

FEED SAVING. Customers report 1/2 to 2 lbs. per 100 birds per day—over \$10,000 per year saved on a 100,000 bird system. Year after year!

TROUGH DESIGN. High inside steel for strength. No feed buildup or waste like chain trough.

NO RE-GRADING of feed. Due to our design. Chain lets birds pick over feed while feeder runs.

REMOVES FEED. Our auger slowly removes, keeping old and new feed blended. Chain doesn't, so feed can get stale.

MAINTENANCE IS MINIMAL. Only needs the least of all feeders. Easy repairs, with major components, and no maintenance elsewhere. Chain guides to replace. Repair quickly and five-year after year.

SIMPLE OPERATION. "Push-Pull" Power Units with low HP motor are located along the feeder line as needed.

EASY AUGER CONNECTION. Allows fast and simple installation, also quick and easy repair of auger if ever necessary.

Remodel with Chore-Time and you can have more birds, better performance and less maintenance. Chore-Time's 4 tier, 20 inch deep Duratrim are the same width as 3 tier dropping board systems and 4 tier reverse cages. Go from 60,000 birds to 80,000 birds.

Over 80% of the nation's top egg producers* have already switched to Chore-Time cages with ULTRAFLO® Feeders!*

Egg producers have been putting up with obsolete chain feeders far too long. Now there's a better way: Chore-Time's proven ULTRAFLO Cage Feeding System. Since introduction, more than 80% of the top 54 egg producers* have gone to ULTRAFLO. A lot of smaller ones have too.

They've all looked at the advantages and chosen ULTRAFLO. That's because it makes them more profitable. Total egg production and egg size—these are the best benefits of our complete feeding system.

Why not check out the facts for yourself? Contact us now—or ask any producer who owns ULTRAFLO. Because the only negative comments about our feeding system come from our competition—not from our customers.
