Jessica Royer Captures Dairy Princess Title

BETH MILLER Franklin Co. Correspondent CHAMBERSBURG (Franklin Co.) — Jessica Royer was chosen as the 1993 Franklin County Dairy Princess during the county's 26th

annual Dairy Princess Pageant held at the Lighthouse Restaurant in Chambersburg. Royer will be no stranger to her

new job as dairy princess because she was the alternate dairy princess for the county for 1992.

She won her new crown after competing against two other contestants.

One of her competitors, Amy Dulebohn, was named first alternate dairy princess. The second alternate dairy princess was Mary Ellen Deaven.

The judges for the pageant, which was dedicated to the memory of Norman W. Sollenberger, were John Creighton Jr., Scott Deputy, and Norma Lash.

The contestants were judged on how they answered the pageant question and on the way they delivered their presentations to promote the dairy industry.

The contest question was, "What is the largest and most concerning issue for farmers today and with your promotional efforts how would you address this issue?"

Royer answered that the biggest issue is to promote the occupation of being a farmer.

Dulebohn answered that the major thing is to promote the benefits of milk over soda.

Deaven replied that the main concerns is to get people to drink

In her presentation Royer dressed like a cow that was named Moola Bell. Moola Bell was the chef for the evening and she told

about the importance of milk and milk products.

Dulebohn performed her presentation as a dentist who had a large stuffed cow doll in the dentist's chair. She told the doll the importance of drinking milk.

In her presentation Deaven dressed as Barney, the purple dinosaur that is the main character in the popular children's show. Her Barney informed all his friends about the goodness of milk.

When the judging was over, Royer received her new crown from 1992 Franklin County Dairy Princess Jennifer Rosenberry. Rosenberry also is the First Alternate State Dairy Princess for 1992.

Royer is a 1991 graduate of James Buchanan High School and is the daughter of Sue Royer.

She is employed on two farms,

the farm of Carl and Joyce Stuff and Walnut Lane Farms which is owned by Rodney and Darlenc Stuff.

Dulebohn is a 1993 graduate of James Buchanan High School and is the daughter of Mr. and Mrs. Joe Dulebohn.

She is a 4-H and an FFA member and will attend Wilson College in Chambersburg this fall to study to become a veterinarian medical technician. She resides on an 88-acre farm that her family has owned for 108 years.

Deaven is the daughter of Mr. and Mrs. Mark Deaven. She is a 4-H and FFA member also and also plans to attend Wilson College where she will study in the pre-veterinarian program.

She shows cattle at the local fairs and lives on a farm that has been in her family for 40 years.

biles, Buckmobile, and Maxwell. He dislikes Fords and other popular name brand cars.

Melvin also raises cattle, three of which are Scotish Highlanders.

"My husband fell in love with them when he first saw them. He likes different things," she said. According to Lilly, the Highlanders grow more slowly, do not eat much grain, and are much lower in fat.

"Our butcher could not believe how little fat was on the one we butchered," Lilly said. "It was much less than any cattle that he ever butchered."

Several times a month Lilly volunteers at the local Veteran's

Lilly's son-in-law was paralyzed from the chest down in an accident. Although he has arm movement, he does not have use of his fingers. The couple have a 9-month-old baby, and Lilly has spent many hours helping her daughter and at the rehabilitation hospital where the son-in-law-is still a patient.

The accident has been a devastating blow to the family. With her usual resourcefulness, Lilly is searching for ways to help in the transition. She said that together they are learning that life goes on and one must learn to cope. CLIP AND SAVE

WATCH The Work Watch Is Back! In the mid-1980's we sold hundreds of work watches to hard-working individuals like yourself who needed an accurate, dependable timepiece. They

needed a watch that would withstand the dust, moisture, bumps, and temperatures encountered on the farm, in the orchard, and in the woods. Many who bought the work watch told us it was the best watch they had ever owned. Now, due to the past success and the present need, we are again offering the work watch through Lancaster Farming.

Our work watch has all the features needed to endure the punishment you will put it through. The WATER RESISTANT seal will protect your watch when you irrigate fields, fix broken water systems, get milk splashed on your arm while feeding calves, or walk the fence in the rain, to find out where your cattle are getting out. Being SHOCK RESISTANT, your work watch will continue to work when it is slapped by a cow's tail, a failing board, or the belt shield that your arm slams against when your wrench slips off the bolt. While your watch is scraped by branches, rubbed against walls, and knocked against machinery, the low profile, SCRATCH RESISTANT, glass crystal will resist the scratches and cracks that render watches unreadable. Finally, the BATTERY POWERED QUARTZ movement of your work watch is accurate to within 2 minutes per year, and does not need to be wound, meaning that your watch will be on time, all the time, without any effort on your part.

A final proof of the strength of this watch and of its suitability to your needs is the warranty. If your work watch stops running within FIVE YEARS of the date of purchase, the manufacturer will repair or replace your watch at no charge. This is one of the longest warranties in the watch industry. The manufacturer's confidence in this watch means that you can have confidence in its durability and can know that this is the only work watch you will need to buy for the next five years.

This watch is available in both men's and women's styles. To receive your new work watch, read and complete the coupon below, and send it with your payment to:
