AVAILABLE NOW -

Contracts for new and updated turkey houses using **CHORE-TIME** equipment

FRESH, UN-PICKED-OVER FEED to every bird because of enclosed feed tube that stays charged with feed even between feedings. Capacity is 1,000 lbs./hour/line.

LOW ENERGY USE — less than half the power used by chain. Straight-line centerless auger delivers up to 550 feet.

SHIELD IS 15' to fully protect feed. It's attached with rivets.

ADJUSTABLE FEED level lets you maintain low level to cut waste and improve conversion. Positive adjustment can't "spin" and change.

BIG 18" PAN feeds 45 to 75 adult birds; 5 1/2" pan depth is not too deep for 8-week-old birds.

LONG-LASTING because it's designed just for turkeys. 20 ga. galvanized steel, no bolts or screws.

BUILT-IN HIGH CONE distributes feed in pan, avoids build-up in tube.

FEED-SAVER FEATURES: unique "V" pan shape lets you maintain a low level; feed-saver ring; 2 1/2" pan lip to catch feed.

10-YEAR AUGER warranty: no one else comes close

Now Available With New All-Plastic Pan

Chore-Time H2 ALL-PLASTIC FEEDER floods feeder pan with plenty of feed to attract and start poults from the first day.

Chore-Time SUPER 6™ curtain-sided ventilation made easy

Chore-Time SUPER 6™ Environmental Control System takes the work out of operating curtain ventilation — and does it without requiring anyone to be a computer expert! SUPER 6 accurately and automatically "supervises" your building's ventilation during hot, cold, and even during natural ventilation periods — doing automatically what most hog producers are attempting to do by hand.
