Strengthen And Reseal Your Silo
With Shotcrete

STRONGER AND WILL OUT LAST PLASTER

IS YOUR SILO READY TO BE FILLED WITH GRASS SILAGE?

PLEASE CHECK YOUR
FILL PIPES AND
DISTRIBUTORS NOW
BEFORE FILLING SEASON

S&S Silo Service prepares the silo surface by using a 3,000 lb. pressure washer, thus making the silo moist, making a much better surface to bond shotcrete. After shotcreting, S&S always takes away any roughness by applying a steel trowel finish.

The excellent bonding of shotcrete to the silo will keep out moisture and prevent mold from growing on the side of the silo.

THE UNLOADER OF THE FUTURE!

"IT IS TIME TO ONCE AGAIN GET SERIOUS ABOUT STORING YOUR VALUABLE FEEDS!!!"

The recent "innovations" and temporary methods of storing your grains and forages are just not protecting your feeds like they should, nor are they really efficient.

Research and practical experience has shown that "the tower silo has never been equalled in its ability to protect your forage quality." And remember... "on most dairy farms, forage quality is the single most important factor affecting profit."

Contact us soon to be sure you get on our schedule to have your poured concrete tower silo constructed in time for your corn silage harvest...

- No used silos!
- No rebuilt silos!
- No pre-owned silos!
- ALL NEW FOR YOU!**

"This is The Kind Of Silo You Need For This Fall's Corn Silage!"
