**"IT IS TIME TO ONCE AGAIN GET SERIOUS ABOUT STORING YOUR VALUABLE FEEDS!!!"**

The recent "innovations" and temporary methods of storing your grains and forages are just not protecting your feeds like they should, nor are they really efficient.

Research and practical experience has shown that "the tower silo has never been equalled in its ability to protect your forage quality." And remember... "on most dairy farms, forage quality is the single most important factor affecting profit."

Contact us soon to be sure you get on our schedule to have your poured concrete tower silo constructed in time for your corn silage harvest...

- No used silos!
- No rebuilt silos!
- No pre-owned silos!
- ALL NEW FOR YOU!

"This is The Kind Of Silo You Need For This Fall's Corn Silage!"

POLY SILO LINERS  
For Upright Silos

- THE ADVANTAGE OF A POLY LINER:
- Spoilage is reduced around doors.
- Feed is exposed to less oxygen - better fermentation.
- Allows storage of high moisture grains or dry grains in a conventional silo.

Now With New Expansion Ring For Easy Installation

If Your Silo Needs New Life...

Try Our Poly Silo Liners

- Delays repair or replacement of corroded silos.
- Prevents corrosive acids from contacting silo wall - extends silo life.
- Quick installation.
- Effectively seals silos from air and weather.

The Liners Are Manufactured To Fit Most Standard Diameter Silos.
