PREVIOUS DAY ESTIMATED STEER AND HEIFER 98,000, COW AND BULL 25,000.

Are your wheat profits getting lost at the mill?

You've just harvested your wheat crop and the yields look pretty good. Looks like you'll even make enough to pay your taxes. Then you haul the grain to the mill. It's weighed. And you find out your test weights are under 58 lb/bu.

So instead of getting full profit, you lose 8¢ for every bushel you produce. Even more if your test weights are substantially under 58 lb/bu. So much for paying off the taxes.

Maximize your profits with unmatched test weights.

With Hoffman 89, you'll get every penny from your wheat crop. In three-year trials conducted by Penn State and the University of Maryland, Hoffman 89 weighed in with the top test weight across all locations.

Best of all, it produced test weights of 58 lb/bu or more every single time, topping the mean test weight by at least 4%.

Get superior test weights without sacrificing yield.

But superior test weights are only half the story with Hoffman 89. You'll also get top-end yields that will have you smiling all the way to the bank.

Its 98 bu/A average, for example, produced a 5% advantage over the mean yield of 92.9 bu/A in Lancaster County trials. At \$3.00 per bushel, you'd make \$15.30 more per acre using Hoffman 89.

Winter hardiness boosts plant population.

Hoffman 89 features excellent winter hardiness to improve percent stand come spring. It also tillers better than many varieties to increase overall plant population. Superior standability and Powdery Mildew tolerance ensure maximum yield potential for added profitability.

Stop losing your profits at the mill.

Tired of losing your profits at the mill? Then call your local Hoffman sales representative. Or call Hoffman Seeds at 1-800-776-7929. We'll show you how to get the most from your wheat crop using Hoffman 89.

Penn State Small Grain Trials Three-Year Performance Summary 1990-92 Lancaster County, Pa.

University of Maryland Three-Year Performance Summary 1990-92

Loss calculations based on \$3.00 per bushel of #2 wheat with a test weight discount of 8¢ per bushel.
