

FINISH THEM FAST WITH BROWN'S BEEF SUPPLEMENTS

There is an art and a science to rapidly and economically finishing beef steers. If you provide the art, Brown's will provide the nutrition to keep beef healthy and finish them economically and rapidly with one of the following Brown's Beef Feeds.

Steer Grower Finisher

A 12% protein, all natural non-medicated feed which is high in energy, low in fiber, and balanced to supplement low quality forages. An ideal feed for the small producer with limited animals and acres.

Beef Booster B250*

This 22% protein feed is very palatable, contains no urea, and provides 250 mg. per day of Bovatec® when fed at the recommended rate of 2 lbs. per head. Bovatec is an ionophore which improves feed efficiency by selectively favoring the more efficient rumen microbes. In addition, Bovatec® provides coccidiosis protection for steers at all weights and ages.

40 Beef Supplement

A high energy, high protein supplement with 4% urea and lots of vitamins A, B and E. Perfect for feeding with ear corn or shelled corn and excellent for maintaining cows, bred heifers, and breeding bulls.

60 Beef Plus

A high protein supplement that puts an excellent finish on steers for market or for the show. This feed combines the nutritional qualities of Linseed Meal and Soybean Meal for rapid lean meat gain with the economy of a 12½ % urea based feed.

60 Steer Supplement B250*

Feed at one pound per day to add the benefits of Bovatec® to the economics of feeding a high protein supplement. Get faster gain and greater feed efficiency. Why fool with three or four separate premix packs, mineral bags and ingredient mixes when Brown's combines it all into one economical package.

60 Steer Concentrate

The economy of a non-medicated, highly fortified protein supplement without the fuss of multiple mixes. Feed at one pound per day with most finishing rations.

B-Booster 1440*

When forages and home grown grains meet or exceed protein requirements, then Brown's Bovatec® mineral pack fills the need. When fed at the rate of ½ to ½ lb. per head per day, this mineral mix meets the nutrient requirements of rapidly growing/finishing steers.

Dairy Lean I

A 40% non-medicated protein supplement pellet which is amino acid balanced to provide rapid lean growth for dairy steer and bulls from 350 lbs. to 600 lbs. body weight. when fed at 2 lbs./head/day with high energy forages and grains, calves will gain lean weight quickly without adding excessive frame size.

Dairy Lean II

A 30% non-medicated protein supplement pellet which is amino acid balanced and rumen buffered to finish dairy steers/bulls quickly. Feed at 2 lbs. per day with whole dry shelled corn on a free choice basis. Dairy steers can often finish to a choice grade with high dressing percentage in 13 to 15 months.
