LOCK IN PROFITS WITH...

Increase feed efficiency and weight gain in a SINGLE IMPLANT!

Revalor[®]-s is the new growth promotant from Hoechst-Roussel Agri-Vet Company, for improved performance in a single implant.

Revalor[®]-s helps you maximize your profits safely, efficiently and better than any progesterone/estradiol implant on the market.

A cattle feeder's profits depend on better feed efficiency and higher average daily gains. The right combination of trenbolone acetate plus estradiol is proven to produce gains more quickly and economically than

other implants. Until now, cattle feeders have not had a single implant to obtain these results.

Now Revalor[®]-s combines the best chemistry in a single implant to give you improved performance, so you can design the program to best meet your needs.

- increase average daily gains
- improve feed efficiency
- improve man power utilization

Hoechst 
Roussel 

yes!

I want the right combination to lock in profits!

Send me information on **revalor[®]-s** (trenbolone acetate + estradiol)
