**BREWEX - For
Use In Dairy Feeds**

BREWEX is used extensively in complete dairy formulations to contribute utilizable energy. It is a price/performance value when used in dry feeds, liquid feeds and on-farm mixes.

MIX WITH DRY FEEDS: BREWEX is found in commercial pelleted rations for dairy, hogs and poultry as an energy source to replace corn. BREWEX replaces corn on a pound for pound dry basis and provides for improved pellet durability, reduced mineral segregation, dust control and improved palatability in dairy rations.

ON-FARM MIXING
A commercial Jersey dairy farm, having over ten years of experience in feeding BREWEX to partially replace corn finds that:

- BREWEX replaced 5% to 10% corn/day
- BREWEX improves butterfat about 0.1%
- BREWEX mixed with forage reduces mortality due to displaced abomasum
- BREWEX helps cattle to stay on feeds

5 Gal. Container, 55 Gal. Drum or Bulk
