Tractor
 North America's leading
 tractor line offers
 you more:

- Hydrostatic steering. Easier handling, durable, responsive.
- Improved front axles. Both two- and four-wheel drive axles, stronger, durable.
- Transmission. Choose the 8x2 or the 8x6 shuttle... the perfect loader transmission, or the deluxe 16x8 Dual Power.

IN STOCK - \$19,900 F.O.B. New Holland

Seeing is believing

Every minute you can save at the blower means more loads per day and more overall productivity. Let us demonstrate the New Holland Model 40 forage blower and we believe you'll agree you can increase your silage productivity.

The Model 40, with 20 percent greater tip speed than previous models, center fills silos over 80 feet high. The Whirl-A-Feed® table spins the crop into the blower housing at high speed, making more efficient use of your tractor's horsepower. See us soon for a demonstration of the Model 40.

Haul, unload your forage faster

You can unload any crop quickly and efficiently with the new big-capacity Models 816 and 818 forage boxes from Ford New Holland. Roller chain drive provides unloading speeds of 3.0 and 7.1 feet-per-minute. And tough Duraply sides flex under heavy loads for season-after-season dependability. The "816" and "818" unload from the front and come standard with three self-aligned beaters and baked-enamel galvanized roof. For a closer look, stop in and see us about this new forage box.

Total performance for big crop harvesting

You get total performance when you harvest your crops with a Model 900 forage harvester. Total performance begins at the cutterhead. The 12 knives of the 21-inch cutterhead give you uniformly cut, high-quality forage. Other features on the "900" include:

- Optional Metalert® II electronic metal detector—protects cutterhead and your valuable animals.
- Electromagnetic clutches—give instant response in controlling feedroll and attachment drives.
- Easy-adjust shearbar—makes adjustment fast and precise.

**Save hay
 Save money**
 NH 144 Windrow Inverter

**LEFTOVER -
 SPECIAL PRICE!**
\$2,975
 FOB New Holland

The New Holland Model 144 windrow inverter can save your hay crop by turning it over to dry, without losing valuable leaves. Get your hay out of the field sooner, before it rains. Or, if it's been rained on, dry it quickly and gently. Make your hay more valuable with the "144".
