IT ALSO CUTS MANHOURS.

Hesston 1160 Mower Conditioner

Now's The Time To Buy!
See Dealers Below For Company Programs, Financing And Warranty Information

When you're doing high-capacity haying, our Hesston 1160 Hydro Swing Mower Conditioner gets right down to business.

We built it with a center-pivot design that gives you all the benefits of a self-propelled—without the extra expense. And it's made for consistent, even cutting.

Once you've entered your fields, the 1160's fully engaged 110" conditioner goes to work for fast drying and even, well-conditioned windrows. You can even adjust the forming shields to produce everything from a swath to Hesston's unique fluffy windrow. Whatever the crop conditions, the 1160 tailors itself so you can harvest the highest quality hay and save lots of time in the process.

See your AGCO/Hesston dealer listed here and ask about our flexible financing plans on the 1160. Or on our wide selection of other equipment, all backed by the AGCO Warranty Program.

The Chain Saws For People Who Want To Act Like Lumberjacks, Not Work Like Them.

If you know a little about the timber business, you know that Stihl chain saws have been used by professional woodcutters for over sixty years. So maybe you think Stihl equipment is "too good" for a suburbanite or farmer or anyone else who needs to cut wood on an occasional basis.

Well, we're happy to tell you that Stihl makes a whole series of chain saws with your needs in mind.

But don't confuse

them with discount-store chain saws. All Stihl saws are designed for performance, ease of handling and starting, and durability.

Now, about the 026 shown at the bottom we'll admit we sell this saw to professional woodcutters. But it's also bought by people who simply put a lot of hours on a saw every year.

And by the way, when were you ever unhappy because you bought a product that was too good?

For The Part Of You That Promised You'd Never Compromise.

STIHL®
