

**Delmarva Broiler Fryer Market**

Wednesday, September 15, 1993  
 Movement of ready-to-cook whole birds was moderate to good for immediate deliveries, not fully developed for later. Seller offerings were adequate and in best balance on under 3 pound sizes. Live supplies were generally moderate. Weights were desirable to heavy. Processing schedules were very heavy. Less than trucklot asking prices were unchanged at 58 to 69 cents. Trade sentiment was steady to fully steady. In the parts complex bone-in breasts were in short supply. Boneless skinless breasts and wings were tight. Legs and particularly leg quarters were available and slow to clear. Drums and thighs were irregular.

Sales are too few to report prices, however trade sentiment ranges barely steady to steady. Offerings of leghorns are at least adequate and most processing operations are booked into late month. Availability of heavy hens is irregular with some active interest starting to show in export markets. Undertone mixed.

Simply purchase WL 322HQ, fill out the official HQ Challenge card and plant WL 322HQ next to a competitive variety in your field. Harvest at the same time and have an approved lab test each alfalfa. If our bio-engineered WL 322HQ doesn't produce a higher Relative Feed Value and a higher

Crude Protein, we'll replace the WL 322HQ seed with an alternate W-L variety of your choice. Guaranteed.

This is our way of letting you know that we believe our new HQ varieties are simply the best available in the field; university results have proven this to be true. So take the HQ Challenge. We're ready to prove our performance and back it up with more than promises. For HQ Challenge cards and complete details, contact your W-L Dealer - ASAP!
