Wednesday, October 13

Pa./Va. Turkey Day, Mechanicsburg Holiday Inn, Mechanicsburg.

## 12 ton LOW PROFILE RUNNING GEAR

Spring loaded lift assist on the tongue is a standard feature of the 12 ton gears. A short turning radius permits tight turns. Built-in steering stops prevent damage from over steering.

### Valuable Dependability

- ◆ Automotive type steering with adjustable solid steel tie rods.
- ◆ Heavy duty spindle and hub assembly for long service life.
- ◆ Wide 84" tire tread width for added stability and maximum safety.
- ◆ Bolster stakes adjust from 38" to 42" width.

Straight heavy duty spindles lower the gear, allowing an overall lowering of the center of gravity of the grain box. We recommend using this gear with our 365 bushel box.

- ◆ Adjustable reach pole for 86" to 128" wheel base. Extra long reach pole is available for 132" to 174" wheel base.
- ◆ Extendable tongue is self locking when backing up for easy hook ups.
- ◆ Available in your choice of green and yellow trim or red with off-white trim.

## KILE Opens With Fanfare, Work

VERNON ACHENBACH JR.

Lancaster Farming Staff

AHARRISBURG (Dauphin Co.) — The 37th annual Keystone International Livestock Exposition (KILE) opened Thursday evening with a short awards ceremony and welcome, held in the Small Arena of the state Farm Show Complex in Harrisburg.

The annual livestock exposition continues to grow and attract animal exhibitors from a number of states and Canada, according to Charles Ite, general show manager.

After an introduction from Dennis Grumbine, president of the Pennsylvania Livestock Association, and an overview of the changes and additions to this year's version of the large animal exposition, Peter Krall, chairman of the PLA selection committee, introduced Dr. Everett Denlinger as the 1993 selection to the Livestock Hall of Fame and presented the award.

While it was previously announced that Denlinger would receive the award, the official presentation was made in the Small Arena beneath a large permanent photo display of all the previous inductees into the PLA's Hall of Fame.

A number of people and dignitaries were present for the ceremony, including state Secretary of Agriculture Boyd Wolff, to congratulate Denlinger on the nomination to the Hall of Fame.

Denlinger, born in Kinzer, is currently a part time veterinarian at the Penn National Race Track as state veterinarian, however his 46-year career has included an early stint with what has become Atlantic Breeders Cooperative, a private large animal practice in Lancaster County, and from 1968 on he worked for the state Department of Agriculture, becoming chief of its Bureau of Animal Industry in 1972 during which time he instituted a number of disease control programs.

Other awards presented include the PLA Youth Award, which was presented to four Pennsylvania youth active in livestock activities and within their respective agricultural youth organizations.

The FFA award recipients this year were Jeff Bollinger, of Ephrata, and Krista Byers, of Millerstown. The 4-H recipients were Timothy Bishop, of Home City, and Amy Jones, of Carlisle.

Scott Stone, state FFA officer, also made a presentation of an award to the PLA in recognition of appreciation of the livestock organization's support of FFA.

Following the opening ceremony, attendees were invited to watch a novelty pig race — which is an activity in which well-fed young pigs race each other around a small track to receive a treat — and observe some of the show participants who were busy throughout the large complex preparing animals for competitions which actually began Friday and continue through Monday.
