NI 327 2 Row 30" Corn Picker

Easy operation and Perkins® power add up to traditional M-F value.

NEW

MF 5650 COMBINE

1 Leftover Model At A One And Only Price!

The New
**ROTOCUT
SILAGE BALER**

Cuts Your Crop As It
Is Forced Through A
Series Of Knives.

The Benefits:

- Even higher bale density
- Easier distribution of bale contents

Hard to feed crops are aggressively fed right into this baler. Now you can cut and bale rye, barley and oats at boot stage. Bales fall apart - you can throw them down a hay hole and feed them with a fork.

MASSEY FERGUSON

Leveling your hills.

The optional Hillside Cleaning System automatically swings the top sieve sideways, against the slope of the hill. This keeps grain spread out evenly for cleaner grain samples. You get full performance on slopes up to 20%, without the big expense of a hillside combine.
