RUFF-TUFF
 POLY SILO LINERS
 for Upright Silos

Now With New Expansion Ring For Easy Installation
 If Your Silo Needs New Life...
 Try Our Poly Silo Liners

- Delays repair or replacement of corroded silos.
- Prevents corrosive acids from contacting silo wall - extends silo life.
- Quick installation.
- Effectively seals silos from air and weather.

THE ADVANTAGE OF A POLY LINER:
 • Spoilage is reduced around doors.
 • Feed is exposed to less oxygen - better fermentation.
 • Allows storage of high moisture grains or dry grains in a conventional silo.

The Liners Are Manufactured To Fit Most Standard Diameter Silos.

Silage Bags Baggers

CONCRETE REASONS WHY A NEW POURED CONCRETE SILO IS YOUR BEST INVESTMENT...

- Enhancement of cash flow. Improved forage quality results in consistent, and increased milk production.
- "Safe Silo" Our silos meet or exceed industry standards, reducing/protecting lender liability.
- Initial Cost. Used or cheap pre-fab silos may have a lower initial cost, but based upon useful life, the new poured concrete silo will have a lower annual cost: due to longer life and lower maintenance costs.
- Residual Value. Our new, poured concrete silos are built for "generations of use", and enhance the future value of the farm.
- Storage Losses Reduced. Poured concrete silos consistently out-perform all other methods of storing and preserving the total digestible nutrients in forage crops.
- Protecting Forage Quality. Oxygen and heat cause the most damage to stored silage and haylage. Our poured concrete silos are the very best system to PROTECT YOUR FORAGE QUALITY... "NOBODY PROTECTS FORAGE QUALITY LIKE WE DO...NOBODY"

"This is the kind of silo you need to protect your valuable feed."
